Skills

- **Data Analysis** (Excel, Google Sheets, SQL)
- **Data Visualization** (Power BI, Google Data Studio, Excel Charts)
- **Basic Machine Learning** (Python - scikit-learn, R, Jupyter Notebooks)
- **Business Intelligence Reporting** (Power BI, Google Analytics)
- **Statistical Analysis** (Excel, R, Python - Pandas)
- **Data Cleansing & Preprocessing** (Python - Pandas, Excel, Google Sheets)
- **Data Reporting** (Excel, Power BI)
- **SQL Querying** (MySQL, SQL Server, SQLite)
- **Data Manipulation** (Excel, Python - Pandas, Google Sheets)
- **Problem Solving** (Excel, Python, Google Sheets)
- **Languages**

English - Native

French - Beginner

About Me

I am a Data and Business Analyst with a strong focus on Business Intelligence. I am skilled in Python, R, SQL, and Power BI, using data to help businesses make informed decisions. Actively looking for an 6 -12 months internship, I have experience in data analysis, reporting, and creating dashboards. I am proficient in machine learning, predictive modeling, and data visualization, aiming to turn complex data into useful business insights to improve processes and support decision-making.

Education

- **Masters in Data Science & Business Analytics** **2025 - 2026**
EDC Paris Business School

The Data Science and Business Analytics program equips students with skills to make data-driven decisions. It covers advanced analytics, machine learning, and data visualization. Using tools like Python, R, and Tableau, students learn to analyze data, solve business challenges, and improve strategies in dynamic markets.

- **Bachelors in Technology (Engineering)** **2020-2024**
Sree Vidyanikethan Engineering college

With a background in Electronics and Instrumentation, I have gained expertise in data acquisition, signal processing, and system optimization. My experience with automation and control systems is transferable to the data field, enabling me to apply analytical and problem-solving skills to extract insights and drive data-driven decisions.

Experience

- **Machine Learning Engineer Intern** **March 2024- September 2024**
Airbus India Operations Private Limited

- Developed and optimized machine learning models using Python and scikit-learn, focusing on predictive analytics, classification, and solving business and engineering challenges.
- Created interactive dashboards and visualizations in Power BI to present key business metrics, enabling stakeholders to make informed, data-driven decisions and drive business improvements.
- Used Power BI to clean, transform, and model large datasets, delivering actionable insights that streamlined business processes and improved performance.

- **Business & Data Analyst Apprentice** **January 2023 - March 2024**
Insight Metrics Consulting Private Limited.

- Conducted market research and competitive analysis to identify trends, customer behavior, and opportunities, helping guide business strategy and decision-making.
- Utilized Power BI to build interactive dashboards and reports, transforming data into visual insights that informed key business decisions and enhanced strategic planning.
- Applied basic machine learning techniques to analyze data patterns, providing predictive insights and supporting decision-making in marketing and operational processes.
- Leveraged advanced Excel functions (PivotTables, VLOOKUP, and macros) and SQL to analyze large datasets, streamline reporting, and improve business process efficiency.
